Education

2020-12	2024-02

Institute of Aeronautical Engineering Dundigal
B.Tech ECE   6.55 (CGPA)

2018-06	2020-06

Loyola Academy Junior College Alwal, Hyderabad
Intermediate   82.4 (Percentage)

	2018-04

Sat Gyan Techno Scchool Venkateshwar nagar,Quthbullapur,Chintal
10th class   9.0 (CGPA)

Personal Skills

▶ Communication
▶ Adaptability
▶ Time management
▶ Team Work

Professional Skills

▶ Python
▶ HTML
▶ CSS
▶ SQL
▶ C

Coding Profiles

CodeChef ⧉	(Rating)
Hackerrank ⧉	1(Badges)
GeeksforGeeks ⧉	40(Score)
LeetCode ⧉	7(Problems)

A hardworking and passionate job seeker with strong organizational skills eager to secure an entry-level [Job Title] position. Ready to embrace the team to achieve company goals.

Projects

GSM based forest security using arduino ⧉
A GSM module-based forest security system using Arduino can be designed to monitor and protect forests from potential threats such as fire, trespassing, or illegal logging.

Responsive Watch Website ⧉
This project presents a responsive watch website designed to provide an engaging user experience across various devices, including desktops, tablets, and mobile phones. The website aims to highlight the features and functionality of smartwatches, promoting their benefits.

High Quality Level Video Generation by Down Sampling using Deep Learning
⧉
The project aims to enhance or to maintain standard quality resolution without data loss. Project is based on deep neural network technique and down sampling as it reduces the spatial resolution.

ANALOG CLOCK IN FRONTEND DEVELOPMENT ⧉
In frontend development, an analog clock is a graphical representation of a clock face with hour, minute, and sometimes second hands, typically resembling a traditional clock

Achievements

Basics of Python	2022-11
Programming Fundamentals using python-part 1 by Spring borad	2023-03
SQL and SQL server for begineers	2024-01
SQL,CSS,PYTHON Basics	2024-01
